LOUISIANA ANNUAL PLANNING REPORT

Prepared by:

Louisiana Department of Labor
Office of Employment Security
Research and Statistics Division
September, 1994

The total cost of publishing 550 copies of this public document, including first printing and reprints, is $4,306.98. This document was published by the Louisiana Department of Labor, Office of Employment Security, Research and Statistics Unit, P.O. Box 94094, Baton Rouge, LA. 70804-9094. Its purpose is to disseminate information pertaining to labor market developments and employment trends under the authority of Part 602.6, Title 20, Chap. V. of the Code of Federal Regulations. It was printed in accordance with the standards for printing by state agencies established pursuant to R.S. 43:31.

PREFACE

The "Annual Planning Report" is an analytical statistical report which summarizes recent manpower developments, and forecasts future trends of the state of Louisiana and the eight metropolitan statistical areas. It also centers on areas where manpower problems are concentrated.

This publication is designed to be a tool in employment security planning operations and in assisting other agencies, as well as the private sector, in the planning and administration of their programs.

This year's publication introduces civilian labor force estimates benchmarked to the 1990 census. You will note that some Metropolitan Statistical Areas (MSA) have undergone redefinitions, as well as some having new names. These are highlighted at the beginning of each MSA. The labor force series from 1990 through 1993 is not comparable to estimates made after January 1994, because of the use of a new monthly household survey.

The nonagricultural wage and salary estimates for MSAs that have gained parishes have been revised to reflect these additions from 1988 forward. All other MSAs have had the usual two year benchmark revision.

STATE DESCRIPTION - LOUISIANA

The state of Louisiana consists of 64 parishes and has a 1993 population estimate of 4,295,477. With a total land area of 43,566 square miles (112,836 square kilometers), the state is relatively densely populated, with an average of 98.6 persons per square mile (38.1 per square kilometers). This compares to the national average of 70.2 persons per square mile. According to the 1990 federal census, Louisiana was the twentieth most populous state in the country. Louisiana is a comparatively "young" state, with a 1990 median age of 31.0 years.

The state is located in the extreme south central part of the United States. Louisiana is bordered on the west by Texas, on the north by Arkansas, on the east and northeast by the Mississippi River, as well as the state of Mississippi. The Gulf of Mexico forms Louisiana's southern boundary. The climate is governed by the landmass bordering the state on the north, its subtropical latitude, and the warm Gulf waters to the south. Temperatures ranged from a statewide average low of 46.7 degrees in January,to 83.6 degrees for August's statewide average high in 1993. Temperatures in Louisiana for five of the last seven years have been below the thirty year average. Rainfall has been above average for six of the last seven years. The annual average precipitation in Louisiana for 1993 was 59.4 inches.

The four most heavily populated parishes in the state are Orleans, Jefferson, East Baton Rouge and Caddo. In addition to being the most populous, Orleans Parish is also the most urban with a 100 percent urbanized population according to the 1990 census figures. Orleans is the smallest parish in land area with 180.6 square miles, but is densely populated with 2,729.9 persons per square mile. Louisiana has eight parishes that are considered to be 100 percent rural according to the 1990 census. These parishes are: Caldwell, Cameron, Grant, Red River, St. Helena, Tensas, West Carroll, and West Feliciana. Five of these parishes had 1990 census populations of less than 10,000 people. In contrast to Orleans Parish being the smallest in land area, Cameron Parish has the least number of people per square mile with 6.9 persons for its 1,313 square miles. Vernon parish is the largest parish in land area with 1,328.5 square miles.

The southern section of Louisiana has many coastal marshes and bayous with generally low, flat terrain. The central section of the state is characterized by delta land suitable for agriculture. The northern part of the state is more elevated, with rolling hills and valleys. This varied geographic profile encourages a wide variety of agricultural, recreational and industrialized pursuits within this state.

Louisiana blends a wealth of historic charm and rich natural resources with modern industries. Fertile soil, adequate rainfall, temperate climate, navigational waterways and highway and interstate systems are important factors basic to the state's wealth and continued growth.

LOUISIANA'S ECONOMIC PROFILE

Louisiana's nonagricultural wage and salary employment increased to 1,643,100 for the 1993 annual average. This was a job gain of 16,200 from the 1992 average of 1,626,900. The service producing industries were responsible for most of the job growth from 1992 to 1993.

Manufacturing was the only industry in goods producing to exhibit employment growth in 1993. Mining, decreased 2,400 jobs from the annual average of 48,100 in 1992 to 45,700 in 1993. Special trade contractors increased 400 jobs, but losses in general building contractors and heavy construction (except building contractors) dropped employment levels in total construction 1,400, from the 1992 level of 98,000 employed. In manufacturing, nondurable goods exhibited a growth of 1,900 jobs to bring the 1993 annual average to 106,800 jobs in this sector. Durable goods offset 1,300 of these job gains, to give manufacturing an average growth of 600 employed from 1992 to 1993. The most notable increases in employment were in apparel and other textile products (+900); food and kindred products (+600); lumber and wood products (+600); and stone, clay and glass products (+400), from 1992 to the 1993 annual average. The industries in manufacturing that offer higher weekly earnings such as chemical and allied products and petroleum and coal products showed a smaller employment increase of 100 jobs from 1992 to 1993.

The service producing industries grew 19,500 jobs for the 1993 annual average. Transportation, communications, and public utilities was the only industry to experience job losses from 1992 to 1993. Most of this loss was in water transportation. Increases in the eating and drinking places and the auto dealers and service stations segments of retail trade helped offset a 400 job loss in wholesale trade. Trade increased 5,200 jobs, to the 1993 annual average level of 381,700 employed. Lower interest rates in 1993 helped the finance, insurance and real estate sector to grow at a steady pace in 1993. Beginning the year with 77,300 jobs in January, this industry experienced increased employment for the first half of the year and minor fluctuations for the rest of the year, for an over all job gain of 700 from the 1992 level of 77,200. Services had the most notable growth in the state for 1993. From an annual average of 397,100 in 1992, this industry increased to 409,200, or 12,100 jobs in 1993. Health services increased 5,700, with hospitals experiencing 1,400 of this job gain.

Amusement and recreation services had a job growth of 600 from 1992 to the 1993 annual average. However, we are anticipating a stronger job gain in 1994 in this industry, as more casino and river boat gaming industries get underway in Louisiana. Employment levels as of May, 1994 were at 18,000, compared to 14,700 for May,1993, and 14,000 for the 1993 annual average in the amusement and recreational services industry.

Government employment experienced a gain of less than one percent from 1992 to the 1993 average. Most of this increase was at the local government level. Increases in local educational payrolls were responsible for most of the 1,500 employment growth in this sector. State government employment increased from 104,600, in 1992 to 105,400 for the 1993 annual average. Federal government decreased 600 jobs, from 37,600 employed in 1992, to 37,000 for the 1993 annual average.

The National as well as the statewide unemployment rate decreased from the 1992 annual average to the average for 1993. The U.S. had an average of 6.7 percent in 1993, down from 7.3, in 1992. Louisiana's 1993 annual average was 7.4, a decrease from the 1992 rate of 8.1 percent. The MSA's also experienced a drop in unemployed in 1993, with the exception of the Baton Rouge MSA, which had a slight gain. Alexandria MSA was 6.9 percent for the 1993 annual average, a decrease from the 1992 average of 7.6 percent; Baton Rouge, 6.6, an increase from 6.4 in 1992; Houma, 7.0, down from 8.7; Lafayette,7.1, down from 8.7; Lake Charles, 8.1, down from 9.3; Monroe, 6.9, down from 7.1; New Orleans, 6.8, down from 6.9; and Shreveport - Bossier City, 7.0, down from 7.7 percent.

POPULATION CHANGES IN LOUISIANA
1990 - 1993

Louisiana has experienced a population increase of 75,313 from the 1990 census estimate of 4,220,164, to 4,295,477 for the 1993 estimate. According to the May 1994 Research and Statistics publication, "Louisiana Manpower for Affirmative Action Programs," Louisiana had an annual growth of 8,282 individuals from 1992 to 1993.

For the 1993 estimate, 2,068,087 are males. The female estimate for Louisiana is 2,227,390. Louisiana's minority population represented 32.53% of the state's total population.

Louisiana had an overall population increase of 1.8% from 1990 to 1993. Several parishes in our state had increases above the 5% level. These parishes were: Allen, with an annual increase of 8.6%; St. Tammany, 8.0%; Ascension, 6.7%; and Livingston, with 5.4%. The improvement in the economy of Louisiana has given more people confidence in their decision to make this state their permanent home.

Most of the twenty fastest growing parishes either adjoin or are in one of Louisiana's MSA's (Metropolitan Statistical Areas). The labor force in these parishes commute to work within the MSA boundaries. Twelve of the twenty fastest growing parishes are within MSA's. The Baton Rouge MSA, with East and West Baton Rouge, Ascension, and Livingston parishes, was the only multi parish MSA to have every parish in the top twenty parishes listed by growth. The largest cities in this MSA are Baton Rouge, Donaldsonville, Denham Springs and Port Allen.

All figures for population and labor force of the MSA's that are published by this agency reflect the 1990 census redefinition of some of the MSA's. The Lafayette, New Orleans and Shreveport-Bossier City MSA's have incorporated additional parishes. This brings the percent of Louisiana residents living in MSA's to 75%, while 25% reside in rural areas.

NOTE: EFFECTIVE WITH DATA RELEASED FOR JANUARY 1988, ALL NONAGRICULTURAL WAGE AND SALARY EMPLOYMENT STATISTICS PUBLISHED BY THIS AGENCY ARE BASED ON THE 1987 ISSUE OF THE "STANDARD INDUSTRIAL CLASSIFICATION MANUAL".

ESTIMATES OF NONAGRICULTURAL WAGE AND SALARIED WORKERS ARE PREPARED IN COOPERATION WITH THE U.S. DEPARTMENT OF LABOR, BUREAU OF LABOR STATISTICS, AND INCLUDE ALL FULL-TIME AND PART-TIME WORKERS WHO WERE EMPLOYED DURING THE PAY PERIOD INCLUDING THE 12TH OF THE MONTH, BY PLACE OF EMPLOYMENT. THESE ESTIMATES ARE BASED ON A FIRST QUARTER 1993 BENCHMARK.

* IN THIS SERIES GOVERNMENT INCLUDES PUBLIC ADMINISTRATION AS WELL AS OTHER GOVERNMENT-OPERATED SERVICES.

NOTE: EFFECTIVE WITH DATA RELEASED FOR JANUARY 1988, ALL NONAGRICULTURAL WAGE AND SALARY EMPLOYMENT STATISTICS PUBLISHED BY THIS AGENCY ARE BASED ON THE 1987 ISSUE OF THE STANDARD INDUSTRIAL CLASSIFICATION MANUAL.

ESTIMATES OF NONAGRICULTURAL WAGE AND SALARIED WORKERS ARE PREPARED IN COOPERATION WITH THE U.S. DEPARTMENT OF LABOR, BUREAU OF LABOR STATISTICS, AND INCLUDE ALL FULL-TIME AND PART-TIME WORKERS WHO WERE EMPLOYED DURING THE PAY PERIOD INCLUDING THE 12TH OF THE MONTH, BY PLACE OF EMPLOYMENT. THESE ESTIMATES ARE BASED ON A FIRST QUARTER 1993 BENCHMARK.

* IN THIS SERIES GOVERNMENT INCLUDES PUBLIC ADMINISTRATION AS WELL AS ALL OTHER GOVERNMENT-OPERATED SERVICES.

PERCENT DISTRIBUTION OF NONAGRICULTURAL EMPLOYMENT IN MAJOR INDUSTRY DIVISIONS 1993 – STATEWIDE

NOTE: EFFECTIVE WITH DATA RELEASED FOR JANUARY 1988, ALL NONAGRICULTURAL WAGE AND SALARY EMPLOYMENT STATISTICS PUBLISHED BY THIS AGENCY ARE BASED ON THE 1987 ISSUE OF THE STANDARD INDUSTRIAL CLASSIFICATION MANUAL.

ESTIMATES OF NONAGRICULTURAL WAGE AND SALARIED WORKERS ARE PREPARED IN COOPERATION WITH THE U.S. DEPARTMENT OF LABOR, BUREAU OF LABOR STATISTICS, AND INCLUDE ALL FULL-TIME AND PART-TIME WORKERS WHO WERE EMPLOYED DURING THE PAY PERIOD INCLUDING THE 12TH OF THE MONTH, BY PLACE OF EMPLOYMENT. THESE ESTIMATES ARE BASED ON A FIRST QUARTER 1993 BENCHMARK.

* IN THIS SERIES GOVERNMENT INCLUDES PUBLIC ADMINISTRATION AS WELL AS ALL OTHER GOVERNMENT-OPERATED SERVICES.

ELIGIBLE LABOR SURPLUS AREAS FOR BIDDING ON FEDERAL CONTRACTS IN LOUISIANA

Employers located in labor surplus areas, as classified by the U.S. Department of Labor, can be given preference in bidding on Federal procurement contracts. The purpose in providing such preference is to help direct the government's procurement dollars into areas where people are in the most severe economic need, i.e., areas with the highest rates of unemployment.

This listing becomes effective each October 1st, and remains in effect through the following September 30th. The following list became effective October 1, 1993. The new list will be available in October of 1994. You may contact our office for this update.

ELIGIBLE LABOR SURPLUS AREAS	CIVIL JURISDICTIONS INCLUDED
Acadia Parish	Acadia Parish
Alexandria City	Alexandria City in Rapides Parish
Allen Parish	Allen Parish

BEARFACTS

Louisiana
1991-92

Louisiana is one of the 51 States in the United States. (The District of Columbia is included for ranking purposes.) Its 1992 population of 4,278,900 ranked 21st in the nation.

PER CAPITA PERSONAL INCOME

In 1992, Louisiana had a per capita personal income (PCPI) of $15,931. This PCPI ranked 46th in the United States and was 79 percent of the national average ($20,105). The 1992 PCPI reflected an increase of 5.5 percent from 1991. The 1991-92 national change was 4.9 percent.

TOTAL PERSONAL INCOME

In 1992, Louisiana had a total personal income (TPI) of $68,166,734*. This TPI ranked 24th in the United States and accounted for 1.3 percent of the national total. The 1992 TPI reflected an increase of 6.4 percent from 1991. The 1991-92 national change was 6.1 percent.

COMPONENTS OF TOTAL PERSONAL INCOME

Total personal income (TPI) includes the earnings (wages and salaries, other labor income, and proprietors' income); dividends, interest, and rent; and transfer payments received by the residents of Louisiana. In 1992, earnings were 65.3 percent of TPI; dividends, interest, and rent were 14.0 percent; and transfer payments were 20.7 percent. From 1991 to 1992, earnings increased 5.9 percent; dividends, interest, and rent declined 0.8 percent; and transfer payments increased 13.6 percent.

EARNINGS BY INDUSTRY

Earnings of persons employed in Louisiana increased from $45,580,702* in 1991 to $48,152,779* in 1992, an increase of 5.6 percent. The largest industries in 1992 were services, which accounted for 25.4 percent of earnings; state and local government, 13.5 percent; retail trade, 9.5 percent; and non-durable goods manufacturing, 9.3 percent. Of the industries that accounted for at least 5 percent of earnings in 1992, the slowest growing from 1991 to 1992 was durable goods manufacturing (5.6 percent of earnings in 1992), which increased 1.4 percent; the fastest was services, which increased 9.4 percent.

* All income estimates with the exception of PCPI are in thousands of dollars.

CONSUMER PRICE INDEX

The Consumer Price Index, sometimes called the "Cost of Living Index" is a monthly measure of the average change in prices in a fixed quantity of goods and services for the United States. Prices are gathered from 85 areas across the country. The years 1982-84 are used as the base period. While the CPI may provide a broad outline of price fluctuations, it cannot reflect individual buying trends or regional experiences.

SOURCE: LOUISIANA EMPLOYMENT PROJECTIONS BY INDUSTRIES, OCCUPATIONS AND JOB OPENINGS 1989-2000, VOL I

CHARACTERISTICS OF THE ECONOMICALLY DISADVANTAGED

An economically disadvantaged person is one who is a member of a family which receives cash welfare payments or whose annual income in relation to family size and location does not exceed the established poverty levels listed below. As of April, 1994.

FAMILY SIZE	POVERTY GUIDELINE
1	$ 7,360
2	9,840
3	12,320
4	14,800
5	17,280
6	19,760
7	22,240
8	24,720

For family units with more than 8 members, add $2,480 for each additional family member.

BARRIERS TO THE EMPLOYMENT OF THE ECONOMICALLY DISADVANTAGED

Barriers to being able to find and keep steady employment for people already deemed economically disadvantaged affect all ages in this group. One problem seems to snowball into several as people in this category compete with others in the labor force. Lower educational attainment is associated with lower levels of labor force participation, higher rates of unemployment, greater difficulties finding full-time work, and more importantly, lower wages. To reverse these effects, young adults are encouraged to get their high school diploma, and to further their education through college or vocational training.

In areas where public transportation is not available, the cost of maintaining an automobile may be impossible for some disadvantaged. Cost of insurance, regular maintenance, and gasoline prices all eat away at a minimum wage salary.

Poor health is also a barrier for the economically disadvantaged. In some cases the type of work performed, as well as the number of hours one can work, limits employability. Some disadvantaged may be forced out of the job market to care for sick children or elderly relatives.

The economy also has an affect on the ability of some to find work. Both the present trend of downsizing to make businesses more profitable, and the staffing of positions from companies that supply temporary help, contribute to the difficulties faced by some in finding a permanent job. The trend toward part-time employment to cut the cost of maintaining health coverage and other company benefits makes it harder for those already economically disadvantaged to improve their futures. These shifts in employment practices are also creating a growing pool of dislocated workers. Employees who find their positions eliminated as part of their companies streamlining efforts, are at a definite disadvantage if they are an older worker and have no other job skills desired by the new job market.

As the minority population increases through immigration, new barriers are rising for employers as well as job seekers. The relationship between years of school completed and ability to find and maintain employment, hold true for new immigrants as well as native Americans. Immigrants in this country a minimum of three years have an easier time finding employment because of their improved ability to communicate in English. The problems of overcoming language barriers must be solved before one can compete in the labor force today.

Other factors that contribute to the difficulties encountered by the economically disadvantaged are criminal records, age, permanent disabilities, and lack of work experience.

JOB TRAINING PARTNERSHIP ACT

The Job Training Partnership Act (Public Law 97-300-Oct. 13, 1982) is the nation's major employment incentive program. The purpose of this Act is to establish programs to prepare youth and unskilled adults for entry into the labor force and to afford job training to those economically disadvantaged individuals and other individuals facing serious barriers to employment, who are in special need of such training to obtain productive employment.

Under the Job Training Partnership Act, many responsibilities formerly carried out by the Federal Government devolved to States and local labor markets. The governor has approval authority over locally-developed plans, and is responsible for monitoring local program compliance with the Act. In addition, a new public\private partnership is created to plan and design training programs as well as to deliver training and other services.

SERVICE DELIVERY AREAS, designated by the governor, based upon recommendations of the State Job Training Coordinating Council, deliver services under the Act. Eighteen of these areas, have been designated in Louisiana. Planning functions of both the Governor's representatives and the service delivery areas require considerable statistical information including the characteristics of populations in the respective areas.

In the case of labor force data, unrounded figures have been shown since allocation procedures require their use rather than the normally published rounded information.

R & S JTPA FIELDS, DEFINITIONS, REFERENCES AND SOURCES

SDA NUMBER	Service Delivery Area number. Derived from State Planning District numbering system with certain deviations such as cases of Vernon and St. Tammany Parishes.
PARISH	Geographic area of SDA. (either city or parish)
FIPS CODE	Federal Information Processing Standards Codes (Parish and City codes)
CIVILIAN LABOR FORCE	1993 Annual Average Civilian Labor Force. (Source: LDOL R&S UNIT Rev. 4/94)
EMPLOYMENT	1993 Annual Average Total Employment. (Source: LDOL R&S UNIT Rev. 4/94)
UNEMPLOYMENT	1993 Annual Average Total Unemployment. (Source: LDOL R&S UNIT Rev. 4/94)
RATE	1993 Annual Average Unemployment Rate. (Source: LDOL R&S UNIT Rev. 4/94)
EXCESS	The term "excess number" means the number which represents the number of unemployed individuals in excess of 4.5 percent of the civilian labor force in the Area. (Source: Section 201 (b) (3) (A) PL 97-300).
POPULATION	1993 Total population estimates. (Source: Louisiana Tech University)
DROP OUT	Estimated number of individuals 25 or over who have not completed 12 years of schooling. (Section 203 (b) (3). PL 97-300) (Source: LDOL R&S UNIT).
AFDC	Total individuals 14 and over receiving Aid to Families with Dependent Children, by parish, July 1994. (Source: PAQ 100 Report LA. D.S.S., Office of Eligibility Determinations)
FOOD STAMP PERSONS	Number of persons receiving food stamps for December 1993. (Source: LA D.S.S., Office of Eligibility Determinations)

ALEXANDRIA MSA

This MSA consist of:
Rapides Parish

DESCRIPTION OF THE AREA, LABOR FORCE DEVELOPMENTS AND POPULATION TRENDS

DESCRIPTION OF THE AREA

The Alexandria Metropolitan Statistical Area (MSA) consist of only Rapides Parish. It is one of the three single parish MSA's in Louisiana. Rapides Parish is located in the central section of Louisiana and covers 1,323 square miles. According to the 1990 census, Rapides Parish had 100 persons per square mile. This parish is bordered on the north by Natchitoches, Grant, and LaSalle Parishes; on the south by Allen and Evangeline Parishes; on the east by Avoyelles Parish; and on the west by Vernon Parish.

LABOR FORCE DEVELOPMENTS

The civilian labor force for the Alexandria MSA during 1993 averaged 55,300. This was a decrease from the 1992 average of 56,300. Most of this decline was in the estimated number of unemployed for the MSA. The unemployed figure dropped from 4,300 in 1992, to 3,800 for the 1993 average. This resulted in an unemployment rate of 6.9 percent for 1993, compared to 7.6 percent for the 1992 average.

POPULATION

The 1993 population estimate for the Alexandria MSA was 131,194. This figure represents 62,868 males and 68,326 females. The minority population of the MSA is 38,466. Population figures for the MSA showed a small decrease of 0.3 precent from the 1992 estimate of 132,348. However, the city of Alexandria has grown from the 1990 census estimate of 49,049 to 49,914 for the 1993 figure.

ALEXANDRIA MSA

ECONOMIC PROFILE

Total nonagricultural employment in the Alexandria MSA increased by 1,700 during 1993, for an annual average of 49,400. Both the goods and the service producing sectors reported job gains over the 1992 annual average.

Annual average employment in the goods producing industries stood at 6,700, an increase of 300 over the 1992 average. Durable goods manufacturing led the increase, up by 200, followed by construction, moving up 100. Mining remained at 100.

Service producing employment increased 1,500 in 1993, for an annual average of 42,800. All segments reported growth, with the exception of federal government moving down to a level of 2,400. Both state and local government employment increased 100 each. Trade posted the largest gain of 600, followed by the services industry, with 500. Transportation, communications, and public utilities employment rose 200, due to more business activity. Finance, insurance, and real estate followed the same path, gaining 100 jobs in the 1993 annual average.

BEARFACTS

Alexandria, LA
1991-92

Alexandria is one of the 310 metropolitan areas in the United States. Its 1992 population of 130,600 ranked 252nd in the nation.

PER CAPITA PERSONAL INCOME

In 1992, Alexandria had a per capita personal income (PCPI) of $15,186. This PCPI ranked 288th in the United States and was 76 percent of the national average ($20,105). The 1992 PCPI reflected an increase of 5.3 percent from 1991. The 1991-92 national change was 4.9 percent.

TOTAL PERSONAL INCOME

In 1992, Alexandria had a total personal income (TPI) of $1,982,581*. This TPI ranked 270th in the United States. The 1992 TPI reflected an increase of 4.4 percent from 1991. The 1991-92 national change was 6.1 percent.

COMPONENTS OF TOTAL PERSONAL INCOME

Total personal income (TPI) includes the earnings (wages and salaries, other labor income, and proprietors' income); dividends, interest, and rent; and transfer payments received by the residents of Alexandria. In 1992, earnings were 58.6 percent of TPI; dividends, interest, and rent were 14.3 percent; and transfer payments were 27.0 percent. From 1991 to 1992, earnings increased 3.2 percent; dividends, interest, and rent increased 0.3 percent; and transfer payments increased 9.2 percent.

EARNINGS BY INDUSTRY

Earnings of persons employed in Alexandria increased from $1,279,215* in 1991 to $1,314,378* in 1992, an increase of 2.7 percent. The largest industries in 1992 were services, which accounted for 31.1 percent of earnings; state and local government, 17.3 percent; and retail trade, 10.4 percent. Of the industries that accounted for at least 5 percent of earnings in 1992, the slowest growing from 1991 to 1992 was federal civilian government (6.2 percent of earnings in 1992), which declined 6.0 percent; the fastest was services, which increased 13.2 percent.

* All income estimates with the exception of PCPI are in thousands of dollars.

BATON ROUGE MSA

This MSA consist of:
Ascension Parish
East Baton Rouge Parish
Livingston Parish
West Baton Rouge Parish

DESCRIPTION OF THE AREA, POPULATION TRENDS AND LABOR FORCE DEVELOPMENTS

DESCRIPTION OF THE AREA

The Baton Rouge Metropolitan Statistical Area (MSA) is comprised of four parishes. These are Ascension, East Baton Rouge, Livingston, and West Baton Rouge Parishes. Located in the eastern central part of Louisiana, the MSA has a total land area of 1,587 square miles. The Baton Rouge MSA is bound on the north by St Helena, and East and West Feliciana Parishes. The east is bordered by Tangipahoa Parish. St. John the Baptist, St. James and Assumption Parishes border the southern portion of the MSA, while Pointe Coupee forms the western boundary of the Baton Rouge MSA.

The city of Baton Rouge, in East Baton Rouge Parish, is located approximately 200 miles from the mouth of the Mississippi River, on the east bank of the river. It is the state capital and major urban center of the MSA, and boast the nation's tallest state capital building. As well as being the center of state government, the city is proud of its nationally renowned universities and internationally recognized petrochemical industrial complexes.

The other parishes are primarily rural with much of their workforce commuting to businesses in East Baton Rouge Parish. The Port of Baton Rouge, one of the largest deep-water ports in the nation, is headquartered in the parish seat of Port Allen in West Baton Rouge Parish. The port is linked to the Gulf of Mexico by an intracoastal waterway, offering accessibility to ocean shipping lanes. West Baton Rouge with 191 square mines is the second smallest parish in the state. The parish is a major producer of sugar cane and is the site of one of the oldest sugar mills still in operation in the state near the town of Brusly.

Ascension Parish, midway between the cities of Baton Rouge and New Orleans, is a vital part of the petrochemical complex that forms the industrial corridor between these two cities. This network extends along the Mississippi River. Donaldsonville is the parish seat for Ascension Parish. Tourism is considered a major economic asset to this parish, due to the opening of a factory outlet mall outside the city of Gonzales, that greatly has increased the retail trade segment of the local economy.

Livingston Parish is commonly referred to as one of the Florida Parishes, with the town of Livingston as the parish seat. Denham Springs is the largest city in Livingston Parish. It is located on the Illinois Central Gulf Railroad and serves as a commercial trade center for the populous areas on its outskirts. The interstate highway makes it easy for its residents to commute to employers in Baton Rouge.

POPULATION

The 1993 population estimate for the Baton Rouge MSA increased to 550,336. The Baton Rouge metropolitan statistical area was the only MSA in Louisiana to have all of its component parishes in the listing of the twenty fastest growing parishes in 1933. Ascension Parish was third with a 1993 estimate of 62,109. Livingston Parish ranked fourth with an increase to 74,349. East Baton Rouge Parish, seventh, had a population increase to 393,963, while West Baton Rouge was in eleventh place with a level of 19,955 persons living in its boundries.

The MSA has a male population of 265,930 and a female population of 284,406. The Baton Rouge MSA minority population is 170,999,or 31.07 percent of the population.

LABOR FORCE DEVELOPMENTS

The Baton Rouge MSA labor force decreased from the 1992 annual average of 275,500 to 269,500 for the 1993 annual average figure. This decrease reflected fewer employed with the 1993 average of 251,700, compared to the 1992 estimate of 257,900. Unemployed estimates were 200 higher in the 1993 average of 17,800, resulting in an increase of the 1993 annual average unemployment rate to 6.6 percent, compared to 6.4 percent in 1992. The 1993 annual average unemployment rate for the parishes within the MSA were: Ascension, 8.2 percent in 1993, compared to 7.9 percent for 1992; East Baton Rouge, 5.8, up from 5.7; Livingston, 9.5, up from 8.8;and West Baton Rouge Parish, 8.5, up from 7.8 percent in 1992. Although two tenths of a point is not considered significant, the Baton Rouge MSA was the only area to experience an increase from the annual average in 1992 to the 1993 average.

BATON ROUGE MSA

ECONOMIC PROFILE

The Baton Rouge MSA's average nonagricultural employment stood at 255,100 in 1993, a gain of 5,000 from the 1992 average. Positive movement was reported entirely in the service producing sector. The largest growth occurred in the retail trade segment; expanding its work force by 1,200 in 1993.

The goods producing sector dropped 100 to an average of 54,300. Manufacturing was the only segment reporting an employment loss, occurring mainly in the durable goods industry. Mining employment remained at 900, while construction remained at 30,200 for the year.

Service producing employment rose 5,000 to a level of 200,700 in 1993. The trade industry experienced the most growth, followed by finance, insurance, and real estate. Transportation, communications and public utilities, along with local government reported a gain of 300 each. Services, continued its upward movement growing by 400 in 1993. Federal and state government employment netted losses over the year, losing 200 and 900 respectively.

BEARFACTS

Baton Rouge, LA
1991-92

Baton Rouge is one of the 310 metropolitan areas in the United States. Its 1992 population of 546,300 ranked 89th in the nation.

PER CAPITA PERSONAL INCOME

In 1992, Baton Rouge had a per capita personal income (PCPI) of $17,831. This PCPI ranked 174th in the United States and was 89 percent of the national average ($20,105). The 1992 PCPI reflected an increase of 6.6 percent from 1991. The 1991-92 national change was 4.9 percent.

TOTAL PERSONAL INCOME

In 1992, Baton Rouge had a total personal income (TPI) of $9,741,571*. This TPI ranked 92nd in the United States. The 1992 TPI reflected an increase of 8.4 percent from 1991. The 1991-92 national change was 6.1 percent.

COMPONENTS OF TOTAL PERSONAL INCOME

Total personal income (TPI) includes the earnings (wages and salaries, other labor income, and proprietors' income); dividends, interest, and rent; and transfer payments received by the residents of Baton Rouge. In 1992, earnings were 71.9 percent of TPI; dividends, interest, and rent were 13.0 percent; and transfer payments were 15.2 percent. From 1991 to 1992, earnings increased 8.8 percent; dividends, interest, and rent increased 0.3 percent; and transfer payments increased 14.4 percent.

EARNINGS BY INDUSTRY

Earnings of persons employed in Baton Rouge increased from $6,822,458* in 1991 to $7,434,710* in 1992, an increase of 9.0 percent. The largest industries in 1992 were services, which accounted for 24.4 percent of earnings; state and local government, 16.5 percent; and construction, 13.8 percent. Of the industries that accounted for at least 5 percent of earnings in 1992, the slowest growing from 1991 to 1992 was non-durable goods manufacturing (13.0 percent of earnings in 1992), which increased 4.1 percent; the fastest was services, which increased 12.8 percent.

* All income estimates with the exception of PCPI are in thousands of dollars.

HOUMA MSA

This MSA has consisted of:
Lafourche Parish
Terrebonne Parish

Prior to 1990 this MSA was called the
Houma-Thibodaux MSA

DESCRIPTION OF THE AREA, POPULATION TRENDS, LABOR FORCE DEVELOPMENTS

DESCRIPTION OF THE AREA

The Houma Metropolitan Statistical Area includes the parishes of Lafourche and Terrebonne. These parishes are located in the south central portion of Louisiana and each share a southern boundary with the Gulf of Mexico. According to the 1990 census, Lafourche Parish has 1,085 square miles. The land area is low and level, rising from sea level to 15 feet near Thibodaux. Terrebonne Parish has a land area of 1,255 square miles and its topography varies from prairies and woods about 12 feet above sea level, to bayous, lakes and salt marshes. Lafourche Parish can boast a slightly higher number of persons per square mile, with 79.1, while Terrebonne has 77.3.

POPULATION TREND

The Houma MSA experienced an increase in population for a 1993 estimate of 187,149. This figure represents a 2.4 percent increase from the 1990 census for the MSA. The 1993 estimate reflects a male population of 91,558, and a female population estimate of 95,591. The minority population of the Houma MSA was 36,259. The population estimate for Lafourche Parish was 87,316, while Terrebonne Parish had an estimate of 99,833 for 1993. Terrebonne Parish ranked nineth by percentage of growth in Louisiana for this time period.

LABOR FORCE DEVELOPMENTS

Total labor force estimates for the 1993 annual average were 76,000 for the Houma MSA. This was a decrease from the 1992 average labor force of 78,300. Employment averaged 70,700 in 1993, while unemployed estimates dropped to 5,300. These figures produced an average unemployment rate of 7.0 percent, down from 8.7 percent from the 1992 annual average. The unemployment rate for the parishes comprising the MSA were: Lafourche, 7.0 percent, down from 7.4 in 1992; Terrebonne, also at 7.0 percent for 1993, was down from 9.8 percent in 1992.

HOUMA MSA
ECONOMIC PROFILE

In 1993, total nonagricultural employment in the Houma MSA averaged 59,400. This was a sizable gain of 1,700 over the 1992 average of 57,700.

Goods producing employment noted an increase of 600, mostly due to expansions in the mining sector. This was followed by a jump of 300 in durable goods manufacturing.

In the service producing industry, a substantial rise of 1,000 was attributed to increases of 600 in services and 400 in government at the local level. Transportation, communications and public utilities lost 100 jobs in the water transportation industry. Trade remained the same with 14,700 average employed for both 1992 and 1993. In 1993 a decrease of 200 employed in wholesale trade offset a 200 job increase in retail trade. Finance, insurance and real estate experienced a growth of 100 jobs from 1992 to 1993.

NOTE: EFFECTIVE WITH DATA RELEASED FOR JANUARY 1988, ALL NONAGRICULTURAL WAGE AND SALARY EMPLOYMENT STATISTICS PUBLISHED BY THIS AGENCY ARE BASED ON THE 1987 ISSUE OF THE STANDARD INDUSTRIAL CLASSIFICATION MANUAL.

ESTIMATES OF NONAGRICULTURAL WAGE AND SALARIED WORKERS ARE PREPARED IN COOPERATION WITH THE U.S. DEPARTMENT OF LABOR, BUREAU OF LABOR STATISTICS, AND INCLUDE ALL FULL-TIME AND PART-TIME WORKERS WHO WERE EMPLOYED DURING THE PAY PERIOD INCLUDING THE 12TH OF THE MONTH, BY PLACE OF EMPLOYMENT. THESE ESTIMATES ARE BASED ON A FIRST QUARTER 1993 BENCHMARK. THE HOUMA METROPOLITAN STATISTICAL AREA RENAMED BY THE OFFICE OF MANAGEMENT AND BUDGET INCLUDES LAFOURCHE AND TERREBONNE PARISHES.

* IN THIS SERIES GOVERNMENT INCLUDES PUBLIC ADMINISTRATION AS WELL AS ALL OTHER GOVERNMENT-OPERATED SERVICES.

BEARFACTS

Houma, LA
1991-92

Houma is one of the 310 metropolitan areas in the United States. Its 1992 population of 186,500 ranked 197th in the nation.

PER CAPITA PERSONAL INCOME

In 1992, Houma had a per capita personal income (PCPI) of $13,389. This PCPI ranked 301st in the United States and was 67 percent of the national average ($20,105). The 1992 PCPI reflected an increase of 2.3 percent from 1991. The 1991-92 national change was 4.9 percent.

TOTAL PERSONAL INCOME

In 1992, Houma had a total personal income (TPI) of $2,497,371*. This TPI ranked 232nd in the United States. The 1992 TPI reflected an increase of 3.2 percent from 1991. The 1991-92 national change was 6.1 percent.

COMPONENTS OF TOTAL PERSONAL INCOME

Total personal income (TPI) includes the earnings (wages and salaries, other labor income, and proprietors' income); dividends, interest, and rent; and transfer payments received by the residents of Houma. In 1992, earnings were 65.0 percent of TPI; dividends, interest, and rent were 13.9 percent; and transfer payments were 21.0 percent. From 1991 to 1992, earnings increased 1.6 percent; dividends, interest, and rent declined 5.4 percent; and transfer payments increased 15.7 percent.

EARNINGS BY INDUSTRY

Earnings of persons employed in Houma increased from $1,553,278* in 1991 to $1,577,677* in 1992, an increase of 1.6 percent. The largest industries in 1992 were services, which accounted for 22.6 percent of earnings; state and local government, 14.8 percent; mining, 12.3 percent; and transportation and public utilities, 11.9 percent. Of the industries that accounted for at least 5 percent of earnings in 1992, the slowest growing from 1991 to 1992 was mining, which declined 10.2 percent; the fastest was state and local government, which increased 8.6 percent.

* All income estimates with the exception of PCPI are in thousands of dollars.

LAFAYETTE MSA

Since 1990 this MSA has consisted of:
Acadia Parish
Lafayette Parish
St. Landry Parish
St. Martin Parish

Prior to 1990 the MSA consisted of:
Lafayette Parish
St. Martin Parish

DESCRIPTION OF THE AREA, POPULATION TRENDS AND LABOR FORCE DEVELOPMENTS

DESCRIPTION OF THE AREA

The Lafayette Metropolitan Statistical Area (MSA) has doubled in size with the addition of Acadia and St. Landry Parishes. Lafayette Parish was established as a single parish MSA in the 1960's. In 1983, St. Martin Parish was added to the MSA. Because of commuting patterns developed from the 1990 census, the MSA now includes four parishes with the addition of Acadia and St. Landry Parishes. The Lafayette MSA is located in the southwestern part of Louisiana in the middle of "Cajun Country", more specifically the Acadian culture. The MSA is bordered by Evangeline and St. Landry parishes to the north, and Iberville and Assumption parishes on the east. Jefferson Davis parish borders Acadia on the west, while Vermilion, Iberia and St. Mary parishes lie between the MSA and the Gulf of Mexico. It is only 40 miles from the MSA parishes to the saltwater coast of the Gulf where outdoor enthusiast can enjoy hunting, fishing, bird watching, or just the great climate and natural settings.

POPULATION TRENDS

The Lafayette MSA with its two new parishes has a total population of 354,714 for the 1993 average. This represents a growth of 2,185 from 1992. The MSA has a male population of 170,753, while there were 183,961 females. The minority population of the Lafayette MSA was estimated at, 100,340 in 1993. Lafayette parish was ranked as the fifth fastest growing parish in the state for this time period. The population of the parishes within the MSA are as follows: Acadia, 56,284; Lafayette, 172,193; St. Martin, 44,743; and St. Landry, 81,494 for 1993.

LABOR FORCE DEVELOPMENTS

The 1993 annual average labor force for the Lafayette MSA was 153,700 for 1993. Of this figure, 142,800 were employed and 10,900 were unemployed. This produced an unemployment rate for the MSA of 7.1 percent, a decrease from the 1992 average rate of 8.7 percent. The unemployment rates for the parishes within the MSA were as follows; Acadia, 8.7 percent for the 1993 annual average, compared to 10.3 percent for 1992; Lafayette, 5.4 percent, down from 7.0 percent; St. Landry, 10.4, down from 11.9; and St. Martin, 7.5, down from 9.4 percent in 1992.

LAFAYETTE MSA

ECONOMIC PROFILE

The nonagricultural wage and salary employment in 1993 averaged 135,400, an increase of 4,300 from the 1992 revised figure of 131,100.

Goods producing employment was up by 1,100 from the 1992 average of 32,100 to 33,200. Mining decreased to 11,200 for 1993 from the 1992 annual average of 11,600. Construction increased from the 1992 level of 6,100 to 6,500 in 1993. Manufacturing was up by an average of 1,100 from the 1992 figure of 14,400 to 15,500 in 1993.

The service producing sector's average employment rose from 99,000 to 102,200 in 1993. Transportation, communications, and public utilities was up by 500, from a 1992 level of 7,400 to a 1993 level of 7,900. Trade increased from 33,800 to 34,400. Finance, insurance, and real estate increased from 5,400 in 1992 to 5,600 in 1993. Services rose by 1,500 from the 1992 figure of 30,700 to 32,200 in 1993. Government was up by an average of 300 from the 1992 level of 21,700 to the 1993 level of 22,000.

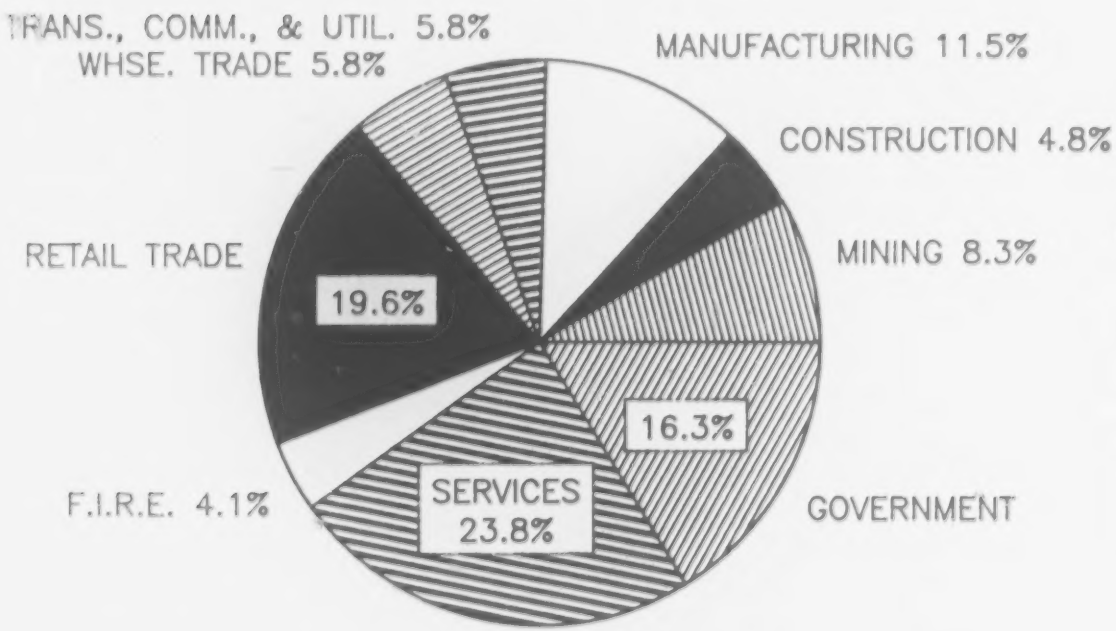
NOTE: EFFECTIVE WITH DATA RELEASED FOR JANUARY 1988, ALL NONAGRICULTURAL WAGE AND SALARY EMPLOYMENT STATISTICS PUBLISHED BY THIS AGENCY ARE BASED ON THE 1987 ISSUE OF THE STANDARD INDUSTRIAL CLASSIFICATION MANUAL.

ESTIMATES OF NONAGRICULTURAL WAGE AND SALARIED WORKERS ARE PREPARED IN COOPERATION WITH THE U.S. DEPARTMENT OF LABOR, BUREAU OF LABOR STATISTICS, AND INCLUDE ALL FULL-TIME AND PART-TIME WORKERS WHO WERE EMPLOYED DURING THE PAY PERIOD INCLUDING THE 12TH OF THE MONTH, BY PLACE OF EMPLOYMENT. THESE ESTIMATES ARE BASED ON A FIRST QUARTER 1993 BENCHMARK. THE REVISED SERIES FOR THE LAFAYETTE METROPOLITAN STATISTICAL AREA AS DESIGNATED BY THE OFFICE OF MANAGEMENT AND BUDGET NOW INCLUDES ACADIA, LAFAYETTE, ST. LANDRY AND ST. MARTIN PARISHES.

* IN THIS SERIES GOVERNMENT INCLUDES PUBLIC ADMINISTRATION AS WELL AS ALL OTHER GOVERNMENT-OPERATED SERVICES.

PERCENT DISTRIBUTION OF NONAGRICULTURAL EMPLOYMENT IN MAJOR INDUSTRY DIVISIONS 1993 – LAFAYETTE MSA



PREPARED BY: LDOL RESEARCH & STATISTICS

BEARFACTS

Lafayette, LA
1991-92

Lafayette is one of the 310 metropolitan areas in the United States. Its 1992 population of 353,300 ranked 129th in the nation.

PER CAPITA PERSONAL INCOME

In 1992, Lafayette had a per capita personal income (PCPI) of $14,954. This PCPI ranked 292nd in the United States and was 74 percent of the national average ($20,105). The 1992 PCPI reflected an increase of 4.6 percent from 1991. The 1991-92 national change was 4.9 percent.

TOTAL PERSONAL INCOME

In 1992, Lafayette had a total personal income (TPI) of $5,283,225*. This TPI ranked 150th in the United States. The 1992 TPI reflected an increase of 5.7 percent from 1991. The 1991-92 national change was 6.1 percent.

COMPONENTS OF TOTAL PERSONAL INCOME

Total personal income (TPI) includes the earnings (wages and salaries, other labor income, and proprietors' income); dividends, interest, and rent; and transfer payments received by the residents of Lafayette. In 1992, earnings were 65.0 percent of TPI; dividends, interest, and rent were 14.8 percent; and transfer payments were 20.2 percent. From 1991 to 1992, earnings increased 5.1 percent; dividends, interest, and rent declined 0.9 percent; and transfer payments increased 13.2 percent.

EARNINGS BY INDUSTRY

Earnings of persons employed in Lafayette increased from $3,519,238* in 1991 to $3,636,803* in 1992, an increase of 3.3 percent. The largest industries in 1992 were services, which accounted for 26.9 percent of earnings; mining, 13.5 percent; and state and local government, 12.0 percent. Of the industries that accounted for at least 5 percent of earnings in 1992, the slowest growing from 1991 to 1992 was mining, which declined 15.0 percent; the fastest was non-durable goods manufacturing (7.6 percent of earnings in 1992), which increased 10.4 percent.

* All income estimates with the exception of PCPI are in thousands of dollars.

LAKE CHARLES MSA

This MSA consist of:
Calcasieu Parish

DESCRIPTION OF THE AREA, POPULATION TRENDS, AND LABOR FORCE DEVELOPMENTS

DESCRIPTION OF THE AREA

The Lake Charles Metropolitan Statistical Area (MSA) consist of only Calcasieu Parish. It is one of three single parish MSA's in the state. Calcasieu Parish is located in the extreme southwest corner of Louisiana. It is separated from Texas by the Sabine River on the western border. Cameron Parish, on the south, separates Calcasieu Parish from the Gulf of Mexico. Jefferson Davis Parish forms the eastern border, while Beauregard Parish defines Calcasieu Parish's northern boundary. The city of Lake Charles is the largest community in the MSA, and is on the lake after which the city was named. The Calcasieu River flows through the city of Lake Charles on its way to the Gulf of Mexico, 40 miles to the south.

Lake Charles has the only deep water port in the state that is not located on the Mississippi River. The Port of Lake Charles is accessible to ocean-going vessels and is 34 miles from the Gulf of Mexico. This is the shortest distance to the Gulf of the states three deep-water ports.

The MSA has a variety of recreational attractions within driving distance from its largest city, Lake Charles. Lake Charles City had the distinction of opening the first riverboat gambling facility in the state in 1993, as well as it being the home of Delta Downs Race Track. There are numerous reservoirs, wildlife refuges, and an outlet mall to offer entertainment for the sportsman, as well as those with other taste.

POPULATION TRENDS

According to the May 1994, "Louisiana Manpower Information for Affirmative Action Programs", Calcasieu Parish has a population of 172,611. This figure ranks the MSA thirteenth out of the twenty fastest growing parishes from the 1990 census until present. The Lake Charles MSA had a male population of 83,820, and a female population of 88,791. Of the total population 41,012 are minorities. The growth in population of 2.7 percent is a positive sign and it exceeded the statewide average growth rate of 1.8 percent.

LABOR FORCE DEVELOPMENTS

The Lake Charles MSA had an annual average unemployment rate of 8.1 percent for 1993. This was a decrease from the 1992 rate of 9.3 percent. The labor force for the 1993 annual average was 78,800. The number of employed were estimated at 72,400, and unemployed were estimated at 6,400. The drop in the unemployment rate can be attributed to a decrease in the number of unemployed.

LAKE CHARLES MSA

ECONOMIC PROFILE

Total nonagricultural employment in the Lake Charles MSA expanded by 500 in 1993 to a level of 71,800 over the 1992 annual average of 71,300.

The goods producing industry dropped by 800, mainly due to losses in the construction sector.

Overall, service producing employment realized a gain of 1,300 jobs. Most of this was centered in the services sector, with an average increase of 800 over the year. Retail trade came in second, with an average increase of 400 from the 1992 level. Both transportation, communications, and public utilities and the finance, insurance and real estate sectors remained the same from the annual average in 1992 to the average in 1993. Government employment increased 300 to a level of 12,300 for the MSA. State government was responsible for a 100 job increase and local government rose 200 for the 1993 average.

BEARFACTS

Lake Charles, LA
1991-92

Lake Charles is one of the 310 metropolitan areas in the United States. Its 1992 population of 171,500 ranked 207th in the nation.

ER CAPITA PERSONAL INCOME

In 1992, Lake Charles had a per capita personal income (PCPI) of $16,137. This PCPI ranked 264th in the United States and was 80 percent of the national average ($20,105). The 1992 PCPI reflected an increase of 4.5 percent from 1991. The 1991-92 national change was 4.9 percent.

OTAL PERSONAL INCOME

In 1992, Lake Charles had a total personal income (TPI) of $2,767,582*. This TPI ranked 217th in the United States. The 1992 TPI reflected an increase of 5.4 percent from 1991. The 1991-92 national change was 6.1 percent.

OMPONENTS OF TOTAL PERSONAL INCOME

Total personal income (TPI) includes the earnings (wages and salaries, other labor income, and proprietors' income); dividends, interest, and rent; and transfer payments received by the residents of Lake Charles. In 1992, earnings were 66.3 percent of TPI; dividends, interest, and rent were 14.5 percent; and transfer payments were 19.2 percent. From 1991 to 1992, earnings increased 5.0 percent; dividends, interest, and rent increased 0.5 percent; and transfer payments increased 10.8 percent.

ARNINGS BY INDUSTRY

Earnings of persons employed in Lake Charles increased from $2,000,298* in 1991 to $2,094,133* in 1992, an increase of 4.7 percent. The largest industries in 1992 were non-durable goods manufacturing, which accounted for 25.4 percent of earnings; services, 21.7 percent; and state and local government, 11.0 percent. Of the industries that accounted for at least 5 percent of earnings in 1992, the slowest growing from 1991 to 1992 was construction (10.6 percent of earnings in 1992), which declined 4.5 percent; the fastest was non-durable goods manufacturing, which increased 9.9 percent.

All income estimates with the exception of PCPI are in thousands of dollars.

MONROE MSA

This MSA consist of:
Ouachita Parish

DESCRIPTION OF THE AREA, POPULATION TRENDS, AND LABOR FORCE DEVELOPMENTS

DESCRIPTION OF THE AREA

The Monroe Metropolitan Statistical Area (MSA) is a single parish MSA consisting of Ouachita Parish. It was established as an MSA in the 1950's. The Monroe MSA is located in the northeast section of the state and covers approximately 611 square miles. Ouachita Parish is bordered on the south by Caldwell Parish, and on the east by Richland Parish. Lincoln and Jackson Parishes form the western border for the MSA. Union and Morehouse Parishes separate the Monroe MSA from the state of Arkansas to the north. The cities of Monroe and West Monroe are divided by the Ouachita River and are the principal cities in the parish.

POPULATION TRENDS

The 1993 population estimate for the Monroe MSA was 145,030, this was an increase from the 1992 estimate of 144,007. The MSA has a male population of 68,396 and a female estimate of 76,634. Of the total population figure, 46,221 or 31.8 percent were minorities.

LABOR FORCE DEVELOPMENTS

The Monroe MSA 1993 annual average civilian labor force was 64,900. Of this figure, 60,400 were employed and 4,500 were unemployed. The annual average unemployment rate was 6.9 percent for 1993. This represented a decrease from the 1992 average of 7.1 percent.

MONROE MSA

ECONOMIC PROFILE

Nonagricultural employment in the MSA averaged 61,700 in 1993, an increase of 700 from the 1992 average of 61,000.

Goods producing employment averaged 11,300 in 1993, a decrease of 100 from the 1992 figure of 11,400. This was due to a loss in manufacturing.

Service producing employment had the largest gain of 800. This sector averaged 50,400 in 1993 and 49,600 in 1992. The services industry within this sector rose by 600 jobs. Transportation, communications and public utilities increased 300 in employment for a 1993 average of 3,200. Wholesale and retail trade remained the same throughout the year with a 1993 annual average employment of 14,900. The finance, insurance and real estate sector experienced a growth of 100 jobs over the year. Government's average employment was 12,200 in 1993, a decrease of 200 from the 1992 annual average of 12,400. Federal government remained unchanged, while state government gained 100 jobs, and the local government sector experienced a decline of 300 jobs from 1992 to 1993.

BEARFACTS

Monroe, LA
1991-92

Monroe is one of the 310 metropolitan areas in the United States. Its 1992 population of 144,900 ranked 231st in the nation.

PER CAPITA PERSONAL INCOME

In 1992, Monroe had a per capita personal income (PCPI) of $15,181. This PCPI ranked 289th in the United States and was 76 percent of the national average ($20,105). The 1992 PCPI reflected an increase of 5.7 percent from 1991. The 1991-92 national change was 4.9 percent.

TOTAL PERSONAL INCOME

In 1992, Monroe had a total personal income (TPI) of $2,199,936*. This TPI ranked 249th in the United States. The 1992 TPI reflected an increase of 7.0 percent from 1991. The 1991-92 national change was 6.1 percent.

COMPONENTS OF TOTAL PERSONAL INCOME

Total personal income (TPI) includes the earnings (wages and salaries, other labor income, and proprietors' income); dividends, interest, and rent; and transfer payments received by the residents of Monroe. In 1992, earnings were 65.5 percent of TPI; dividends, interest, and rent were 14.4 percent; and transfer payments were 20.1 percent. From 1991 to 1992, earnings increased 6.6 percent; dividends, interest, and rent increased 0.1 percent; and transfer payments increased 14.3 percent.

ARNINGS BY INDUSTRY

Earnings of persons employed in Monroe increased from $1,544,885* in 1991 to $1,643,165* in 1992, an increase of 6.4 percent. The largest industries in 1992 were services, which accounted for 27.8 percent of earnings; state and local government, 14.5 percent; and non-durable goods manufacturing, 13.5 percent. Of the industries that accounted for at least 5 percent of earnings in 1992, the slowest growing from 1991 to 1992 was wholesale trade (5.9 percent of earnings in 1992), which declined 5.6 percent; the fastest was retail trade (11.4 percent of earnings in 1992), which increased 11.1 percent.

* All income estimates with the exception of PCPI are in thousands of dollars.

NEW ORLEANS MSA

Since 1990 this MSA has consisted of:
Jefferson Parish
Orleans Parish
Plaquemines Parish
St. Bernard Parish
St. Charles Parish
St. James Parish
St. John the Baptist Parish
St. Tammany Parish

Prior to 1990 the MSA consisted of:
Jefferson Parish
Orleans Parish
St. Bernard Parish
St. Charles Parish
St. John Parish
St. Tammany Parish

DESCRIPTION OF THE AREA, POPULATION TRENDS, AND LABOR FORCE DEVELOPMENTS

DESCRIPTION OF THE AREA

The New Orleans MSA (Metropolitan Statistical Area) was first established in the 1940's with the parishes of Orleans, Jefferson and St. Bernard. In the 1960's St. Tammany Parish was added. With the introduction of the 1980 census estimates, the New Orleans MSA grew to also include St. Charles and St. John the Baptist Parishes. Now, with the commuting patterns established in the 1990 census two additional parishes have joined the New Orleans MSA, those are St. James and Plaquemines Parishes. The MSA has an eastern border of the state of Mississippi, and southern boundary of the Gulf of Mexico. This MSA includes St. Tammany Parish on the north shore of Lake Pontchartrain, with Tangipahoa Parish as part of its western border. Other parishes bordering the MSA on the southwest are Lafourche and Assumption Parishes. Livingston and Ascension Parishes in the Baton Rouge MSA also form part of the northwest border for the New Orleans MSA.

POPULATION TRENDS

The New Orleans MSA includes one of the fastest growing parishes in the state. St. Tammany Parish was the fastest growing parish in the MSA, from the 1990 census estimates, to the 1993 Louisiana Tech estimate. St. Tammany Parish is becoming the northern New Orleans hub as more New Orleanians move to St. Tammany in favor of the smaller community setting. Orleans Parish is the only parish in the state that consist of an entire city as its boundaries. With no room to expand into unincorporated areas, more of the New Orleans population is moving into neighboring parishes. Other parishes in the MSA that were in the twenty fastest growing were, St. Charles, St. James and St. John Parishes. The 1993 population estimate for the MSA was 1,306,546. The population for the parishes within the MSA are as follows: Jefferson, 457,069, up from the 1992 estimate of 456,389; Orleans, 493,021, down from 495,116; Plaquemines, 26,075, up from 25,869; St. Bernard, 67,938, up from 67,302; St. Charles, 44,052, up from 43,599; St. James, 21,409 down from 21,866; St. John the Baptist, 40,992, up from 40,806; and St. Tammany, 155,990 in 1993, up from the 1992 estimated population of 153,351.

LABOR FORCE DEVELOPMENTS

The New Orleans MSA had a 1993 annual average unemployment rate of 6.8 percent. This was a slight decrease from the 1992 average of 6.9 percent. Civilian labor force estimates for 1993 were 585,600, while 545,600 were employed and 40,000 were estimated unemployed. Unemployment rates for the parishes within the MSA were as follows: Jefferson, 5.9 percent for the 1993 average, down from the 1992 annual average of 6.2 percent; Orleans, 7.2, down from 7.3; Plaquemines, 7.2, down from 8.1; St. Bernard, 7.3, down from 7.7; St. Charles, 8.2, up from, 7.7; St. James, 12.7, up from 11.6; St. John the Baptist, 10.1, up from 8.5; and St. Tammany Parish, at 6.4 percent in 1993, remained unchanged from the 1992 annual average.

NEW ORLEANS MSA

ECONOMIC PROFILE

The nonagricultural wage and salary employment in the New Orleans Metropolitan Statistical Area averaged 568,700 in 1993, an increase of 7,500 from the year-ago revised figure of 561,200.

Goods producing employment decreased by 3,600 with losses of 1,900 and 2,000 in mining and manufacturing, respectively. Construction gained 300 from the 1992 annual average of 25,000 employed.

Service producing employment displayed an increase of 11,300 over the year for an average of 481,800 jobs in the MSA. Several sectors exhibited notable increases. Wholesale and retail trade increased with a 700 job gain in wholesale trade and a gain of 900 in employment in the retail sector. Services increased from 160,000 in 1992, to an average of 167,500 for 1993. Part of this increase can be attributed to the 2,200 growth in health service jobs. Educational services includes private schools and experienced a job gain of 1,400 over the year. Government increased 2,900 to 101,400 for 1993, with most of the gain at the local government level. Finance, insurance and real estate increased 200 in the depository institutions segment. Transportation, communications and public utilities employment at 43,100, was down 900 from last year this time.

BEARFACTS

New Orleans, LA
1991-92

New Orleans is one of the 310 metropolitan areas in the United States. Its 1992 population of 1,302,700 ranked 41st in the nation.

PER CAPITA PERSONAL INCOME

In 1992, New Orleans had a per capita personal income (PCPI) of $18,087. This PCPI ranked 165th in the United States and was 90 percent of the national average ($20,105). The 1992 PCPI reflected an increase of 5.0 percent from 1991. The 1991-92 national change was 4.9 percent.

TOTAL PERSONAL INCOME

In 1992, New Orleans had a total personal income (TPI) of $23,561,775*. This TPI ranked 48th in the United States. The 1992 TPI reflected an increase of 5.9 percent from 1991. The 1991-92 national change was 6.1 percent.

COMPONENTS OF TOTAL PERSONAL INCOME

Total personal income (TPI) includes the earnings (wages and salaries, other labor income, and proprietors' income); dividends, interest, and rent; and transfer payments received by the residents of New Orleans. In 1992, earnings were 66.9 percent of TPI; dividends, interest, and rent were 14.2 percent; and transfer payments were 18.9 percent. From 1991 to 1992, earnings increased 5.1 percent; dividends, interest, and rent declined 0.5 percent; and transfer payments increased 14.2 percent.

EARNINGS BY INDUSTRY

Earnings of persons employed in New Orleans increased from $16,908,482* in 1991 to $17,739,688* in 1992, an increase of 4.9 percent. The largest industries in 1992 were services, which accounted for 30.2 percent of earnings; state and local government, 10.6 percent; and transportation and public utilities, 9.8 percent. Of the industries that accounted for at least 5 percent of earnings in 1992, the slowest growing from 1991 to 1992 was mining (5.4 percent of earnings in 1992), which declined 3.6 percent; the fastest was services, which increased 8.4 percent.

* All income estimates with the exception of PCPI are in thousands of dollars.

SHREVEPORT - BOSSIER CITY MSA

Since 1990 this MSA has consisted of:
Bossier Parish
Caddo Parish
Webster Parish

Prior to 1990 it was called the Shreveport MSA
and consisted of Bossier and Caddo Parishes.

DESCRIPTION OF THE AREA, POPULATION TRENDS, AND LABOR FORCE DEVELOPMENTS

DESCRIPTION OF THE AREA

Because of commuting patterns established in the 1990 census, the Shreveport-Bossier City Metropolitan Statistical Area (MSA) is now composed of three parishes. These are Bossier, Caddo and Webster Parishes. Caddo Parish first met the MSA criteria in the 1940's and Bossier was added to Caddo Parish in the 1950's. Webster was added in the 1970's, deleted in 1983, and added to the MSA again in 1993. At that time, the MSA name was changed from the Shreveport MSA to the Shreveport-Bossier City MSA. The new MSA is bordered by the states of Arkansas to the north and Texas to the west. Claiborne and Bienville Parishes form the MSA's eastern boundary, while Red River and Desoto Parishes meet the southern border of the MSA.

The two largest cities in the MSA face each other across the Red River. Bossier City in Bossier Parish is on the eastern side, and is the home of the Louisiana Downs race track and Barksdale Air Force Base. Shreveport City on the western shore of the Red River in Caddo Parish is the largest city in the MSA. Both cities have prospered from three riverboat gambling facilities that have recently begun operations in the MSA.

POPULATION TRENDS

The 1993 population estimate for the Shreveport - Bossier City MSA was 376,556. Of the total population 177,780 were male and 198,776 were female. The minority population of the MSA for 1993 was 133,886 or 35.56 percent of the population. Population figures for the parishes within the MSA are as follows: Bossier, 88,351 in 1993, up from the 1992 estimate of, 88,044; Caddo, at 246,597, was down from the 1992 estimate of 247,033; Webster Parish had an estimate of 41,608 in 1993, and 41,851 in 1992.

LABOR FORCE DEVELOPMENTS

The civilian labor force for the Shreveport-Bossier City MSA was estimated at 170,000 for the 1993 annual average. Employment figures were 158,000 and estimated unemployed were 12,000 for an unemployment rate of 7.0 percent. This was a decrease from the 1992 annual average unemployment rate of 7.7 percent. Average unemployment rates for the parishes within the MSA were: Bossier, 6.7 percent in 1993, down from 7.1 percent in 1992; Caddo 6.7, down from, 7.3; and Webster Parish, 10.3, down from, 11.4 percent in 1992.

SHREVEPORT-BOSSIER CITY MSA

ECONOMIC PROFILE

The nonagricultural wage and salary employment in 1993 averaged 153,700, an increase of 4,600 from the 1992 revised figure of 149,100.

Goods producing employment was up by 200 from the 1992 average of 30,900 to 31,100. Mining was unchanged in 1993 and stood at the 1992 level of 3,000. Construction increased from the 1992 level of 7,300 to 8,300 in 1993. Manufacturing decreased by 800 from 20,600 in 1992 to 19,800 in 1993.

The service producing sector's average employment rose from 118,200 to 122,500. Transportation, communications, and public utilities increased from 8,200 in 1992 to 8,300 in 1993. Wholesale trade increased from 8,600 in 1992 to 8,800 in 1993. Retail trade increased from 26,400 to 27,300 for the 1993 annual average. Finance, insurance, and real estate decreased from 6,800 to 6,700. Services rose by 2,000 from the 1992 figure of 38,600 to 40,600 in 1993. Government was up by 1,200 from the 1992 level of 29,700 to the 1993 level of 30,900. Most of the increase occurred in the state government sector with an increase of 600 jobs. The local government sector increased 500 from the 1992 annual average of 16,900 employed.

1/ EFFECTIVE WITH DATA RELEASED FOR JANUARY 1988, ALL NONAGRICULTURAL WAGE AND SALARY EMPLOYMENT STATISTICS PUBLISHED BY THIS AGENCY ARE BASED ON THE 1987 ISSUE OF THE STANDARD INDUSTRIAL CLASSIFICATION MANUAL.

THESE SERIES ARE ADJUSTED TO A FIRST QUARTER 1993 BENCHMARK AND WERE COMPILED BY THE RESEARCH AND STATISTICS UNIT OF THE LOUISIANA DEPARTMENT OF LABOR IN COOPERATION WITH THE U.S. DEPARTMENT OF LABOR, BUREAU OF LABOR STATISTICS. DATA ARE FOR FULL-TIME AND PART-TIME PRODUCTION WORKERS WHO WERE EMPLOYED DURING THE PAY PERIODS ENDING NEAREST THE 12TH OF EACH MONTH. EXCLUDED ARE PROPRIETORS, FIRM MEMBERS, AND EXECUTIVE EMPLOYEES. AVERAGE EARNINGS ARE GROSS, REFLECTING CHANGES IN BASIC HOURLY AND INCENTIVE WAGE RATES, PREMIUM PAY FOR OVERTIME WORK, AND SHIFT DIFFERENTIALS. WORK WEEK INFORMATION RELATES TO AVERAGE HOURS WORKED OR PAID FOR.

THE REVISED SERIES FOR THE SHREVEPORT-BOSSIER CITY METROPOLITAN STATISTICAL AREA AS DESIGNATED BY THE OFFICE OF MANAGEMENT AND BUDGET HAS BEEN RENAMED AND NOW INCLUDES CADDO, BOSSIER AND WEBSTER PARISHES.

BEARFACTS

Shreveport-Bossier City, LA
1991-92

Shreveport-Bossier City is one of the 310 metropolitan areas in the United States. Its 1992 population of 374,200 ranked 123rd in the nation.

PER CAPITA PERSONAL INCOME

In 1992, Shreveport-Bossier City had a per capita personal income (PCPI) of $17,061. This PCPI ranked 217th in the United States and was 85 percent of the national average ($20,105). The 1992 PCPI reflected an increase of 6.6 percent from 1991. The 1991-92 national change was 4.9 percent.

TOTAL PERSONAL INCOME

In 1992, Shreveport-Bossier City had a total personal income (TPI) of $6,384,857*. This TPI ranked 134th in the United States. The 1992 TPI reflected an increase of 6.9 percent from 1991. The 1991-92 national change was 6.1 percent.

COMPONENTS OF TOTAL PERSONAL INCOME

Total personal income (TPI) includes the earnings (wages and salaries, other labor income, and proprietors' income); dividends, interest, and rent; and transfer payments received by the residents of Shreveport-Bossier City. In 1992, earnings were 62.4 percent of TPI; dividends, interest, and rent were 16.3 percent; and transfer payments were 21.2 percent. From 1991 to 1992, earnings increased 7.0 percent; dividends, interest, and rent increased 0.2 percent; and transfer payments increased 12.3 percent.

EARNINGS BY INDUSTRY

Earnings of persons employed in Shreveport-Bossier City increased from $4,132,353* in 1991 to $4,419,543* in 1992, an increase of 6.9 percent. The largest industries in 1992 were services, which accounted for 25.2 percent of earnings; state and local government, 13.2 percent; and durable goods manufacturing, 12.0 percent. Of the industries that accounted for at least 5 percent of earnings in 1992, the slowest growing from 1991 to 1992 was durable goods manufacturing, which increased 3.3 percent; the fastest was construction (5.2 percent of earnings in 1992), which increased 15.0 percent.

* All income estimates with the exception of PCPI are in thousands of dollars.

EXPLANATORY MATERIAL

The information presented in this book was compiled by the Louisiana Department of Labor, affiliated with the U. S. Department of Labor. An explanation of some of the terminology used in this report follows:

LABOR AREA: A labor area is a geographical area consisting of a central city or cities and the surrounding territory in which there is a concentration of economic activity, and in which workers can usually change jobs without changing their residence.

CIVILIAN LABOR FORCE: The sum of all employed and unemployed persons 16 years of age or older in the noninstitutional population but not in the Armed Forces.

EMPLOYED: In the CPS, those individuals 16 years of age or older, who worked at least one hour for pay or profit or worked at least 15 unpaid hours in a family business during the reference week. Individuals are also counted as employed if they had a job but did not work because they were: ill, on vacation, in a labor dispute, prevented from working because of bad weather, or taking time off for personal reasons.

UNEMPLOYED: In the CPS, those individuals 16 years of age or older, who do not have a job but are available for work and are actively seeking work during the reference week, (the week including the 12th of the month).

SEASONALLY ADJUSTED: Adjustment of time-series data to eliminate the effect of intra-year variations which tend to occur each year in approximately the same manner. Examples of such variations include school terms, holidays, weather patterns, etc.

NONAGRICULTURAL WAGE AND SALARY EMPLOYMENT: Nonagricultural Wage & Salary Employment refers only to employees on establishment payrolls during the sample week in each month (this week always includes the 12th of the month) and excludes self-employed, unpaid family workers, and workers involved in labor-management disputes.

ALL OTHER NONAGRICULTURAL EMPLOYMENT: This category includes persons who work in non-farm industries that are not reported on payrolls, such as self-employed workers, domestic workers in private households, and unpaid family workers.

APPLICANTS: Applicants are individuals who are registered with the local Job Service Office and are reasonably representative of the available worker supply in most occupational categories and for most sections of the area.

PLACEMENTS: Placements occur when a local Job Service Office, which has an employer job order, refers a qualified applicant to the employer and verifies the fact that the applicant has been hired by the employer.

LABOR MARKET INFORMATION

Publications produced by and available from the Louisiana Department of Labor, Research and Statistics Unit, P.O. Box 94094, Baton Rouge, LA 70804-9094 are as follows:

ANNUAL PLANNING REPORT:

Contains narrative analysis of the labor market, including current and historical employment and unemployment trends and expectations by industry as well as population characteristics and occupational supply and demand data. This publication is produced annually for the state and eight major labor market areas.

MANPOWER INFORMATION FOR AFFIRMATIVE ACTION PROGRAMS:

An annual publication prepared to meet employer requests for population and labor force data by sex, race and ethnic group for the state and labor market areas. It meets basic requirements of Revised Order No. 4, Subpart B, Paragraph 60-2.11; Section (A), (1), (i) - (v) and (2), (i) - (v) as far as affirmative action programs are concerned.

LOUISIANA LABOR MARKET INFORMATION:

Published monthly and includes civilian labor force, employment, unemployment, and the unemployment rate for the state, Metropolitan Statistical Areas (MSA's) and for parishes not included in an MSA. Also included is nonagricultural wage and salaried employment by major industry groups for the state and MSA's; and Average Weekly Wages, Average Weekly Hours, and Average Hourly Earnings in selected industries for the state and 3 major MSA's.

EMPLOYMENT AND WAGES:

Quarterly and annually published data from the employer quarterly contribution reports. Parish and industry data includes number of firms, average employment, total wages paid and number of firms by employment size.

OCCUPATIONAL EMPLOYMENT STATISTICS (3-YEAR CYCLE):

Three current individual publications including employment and staffing patterns for selected industries. Each industry breakdown lists more prevalent occupations and those with the greatest employment levels. Available currently: Selected Manufacturing Industries, and Health Services, 1989: Selected Nonmanufacturing Industries, 1990: Education, Federal, State and Local Government, Trade, Transportation, Communications, and Public Utilities, 1991.

EMPLOYMENT SECURITY ACTIVITIES:

Coverage of services rendered to applicants by Job Service on both an "individual" and "transaction" basis, as well as Unemployment Insurance data, including some characteristics of both applicants and claimants. Available monthly from September 1974 through September 1981, and annually from 1982 to present.

EMPLOYMENT PROJECTIONS:

This publication contains employment estimates of wage and salary, agricultural, self-employed, unpaid family, and private household workers by industry and occupation for 1989, projected to the year 2000.

LOUISIANA OCCUPATIONAL INJURIES AND ILLNESSES:

This publication contains incidence rates of occupational injuries and illnesses in the private sector, by industry, for calendar year of survey.

AVERAGE WEEKLY WAGE:

A form letter verifying the average weekly wage figure applicable to maximum weekly benefits for both unemployment compensation and workers' compensation in Louisiana is available upon request.

Publications of the Louisiana Occupational Information Coordinating Committee (L.O.I.C.C.) are as follows:

OCCUPATIONAL OUTLOOK QUARTERLY:

The quarterly publication addresses various aspects of education, training, job seeking and labor force trends.

FINDING THE RIGHT JOB:

This publication provides valuable information on resumés, job interviews, letters of application, sources of job information, and additional data that will help job seekers.

REFERENCE GUIDE TO OCCUPATIONAL PERMITS AND LICENSES:

The publication is produced in cooperation with the Department of Economic Development, and provides a reference to occupations that require a Louisiana license.
